

COMPANY PROFILE 2025

www.spinnertech.dev

CEO **Statement**

Leading Spinner Tech as CEO and Founder, I drive our mission to deliver top-tier IT software solutions, leveraging my Bachelor's degree in Computer Science & Engineering. Our diverse portfolio includes AI/ML, IoT, mobile app development, and web development showcasing our ability to meet the complex demands of clients worldwide.

My tenure as Secretary of Digital Transformation with the Bangladesh IT Professional Friends Club underlines my commitment to advancing technology's societal role. We champion digitalization efforts and provide robust IT services and support. Our team's expertise is our cornerstone, ensuring client satisfaction through innovative, quality-driven outcomes.

Sabbir Ahmed
CEO of the company

CTO & Team Leader **Speech**

Our journey in the realm of technology is not just about writing code or building products, it's about creating meaningful solutions that make a difference in the world. Each line of code we write, each problem we solve, brings us closer to our vision of a better future.

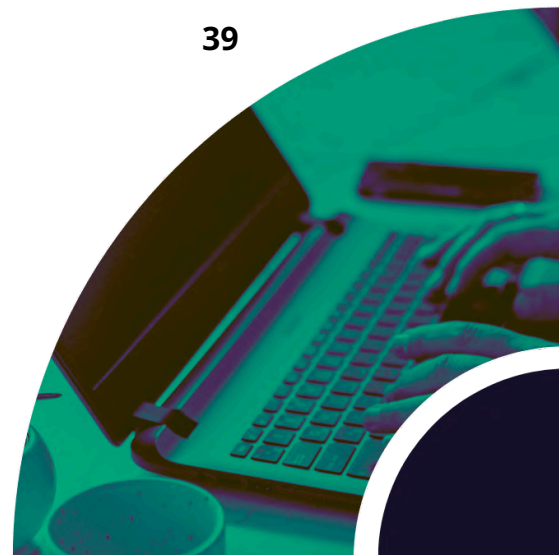

Together, we navigate the complexities of the digital landscape, turning challenges into opportunities and obstacles into stepping stones. Our dedication to continuous learning and growth ensures that we stay ahead in an ever-evolving industry.

Rakibul Zewaz Sourav
CTO & Team leader of the company

About **Company**

Welcome to Spinner Tech, where innovation meets excellence. We're your gateway to cutting-edge solutions in communication and information management.

At Spinner Tech, We develop innovative and creative products and services that provide communication and information solutions. We offer a few services: Software Development, Web Design and Development, Mobile Application Development, Desktop Application Development, Tailor-made Applications, ERPs, CRMs, E-Commerce Solutions, AI/ML Solutions, Blockchain/NFT Solutions, Live Streaming Solutions, UI/UX Solutions, Business-to-Business Applications, Business-to-Client Applications, Managed Hosting and Internet Portal Management. Satisfied clients around the globe bear testimony to the quality of our work.

As a leader in technology exploring, spinner Tech is committed to exporting quality software worldwide. The general purpose of Spinner Tech is to develop and promote advanced information technologies for multi-user operations. Spinner Tech's business philosophy is to ensure the highest quality product, total client satisfaction, timely delivery of solutions and the best quality/price ratio in the industry. We emphasise offering a high degree of product user friendliness through a positive, creative and focused company staff.

Who We Are

Your Trusted Innovation Partner. With Over 9 Years of Experience and 500+ Successful Projects Worldwide, We Specialize in Software Solutions, Mobile Apps, Web Development, Blockchain/NFT and AI/ML. Our Commitment? Crafting Tailored Solutions to Propel Your Business Forward.

At Spinner Tech, we stand as trailblazers in e-commerce development, boasting over 9 years of industry-leading experience and having delivered 500+ successful different types of projects globally. Since our inception in 2017, we've been at the forefront of web, eCommerce, software, mobile app, AI & Blockchain solutions, consistently exceeding client expectations with innovative designs and robust development.

Crafting exceptional solutions tailored to your business needs is at the core of our DNA. Driven by a passion for innovation and a commitment to excellence, Spinner Tech is synonymous with delivering cutting-edge eCommerce, open source, social media, and web solutions that propel businesses to new heights of success. With a proven track record in eCommerce, mobile apps, and web development, Spinner Tech is synonymous with delivering cutting-edge eCommerce, open source, social media, and web development.

Vision & Mission

**Unlocking Potential, Empowering Progress,
Experience the Future with Spinner Tech.
Cutting-edge IT solutions tailored to elevate your
business in the digital age.**

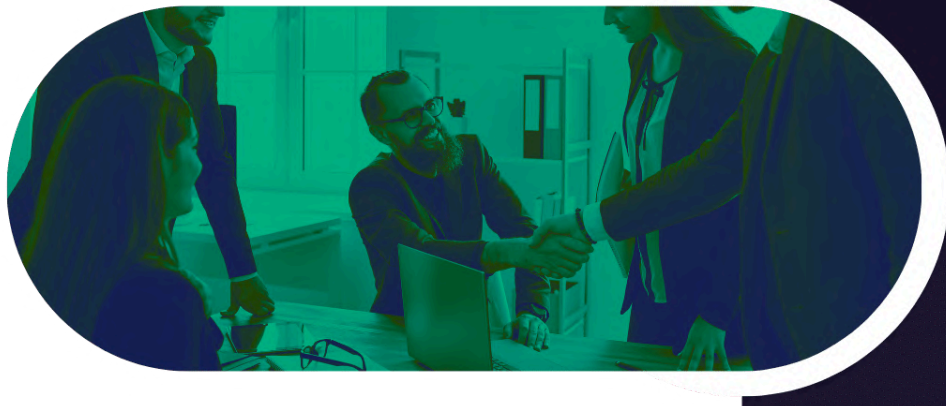

Vision

At Spinner Tech, our vision is to play a pivotal role in the holistic development of our country by democratising access to IT services across all segments of society. Through uncomplicated terms and unwavering dedication, we aspire to be a guiding force in advancing the IT sector in Bangladesh and on the global stage.

Mission

Our mission is to set the standard in technical excellence, embracing the best practices in integrity, capability, and maturity models. We aim to inspire widespread utilisation of IT resources for enhanced productivity across diverse demographics, nurturing the creative potential of the younger generation. By delivering top-notch IT services at optimal costs, we endeavour to catalyse the growth of the IT sector locally and internationally. Furthermore, we are committed to establishing a strong presence in the software solutions arena, offering unparalleled value to our global clientele.

Business

Achievements

Explore Our Journey Celebrating Milestones, Embracing Innovation. Witness Spinner Tech's Evolution in the IT Landscape – From Inception to Industry Leader.

18

Spinner Tech achieved a milestone by training 500 students at the Sheikh Kamal IT Incubation Center. The subsequent year marked our evolution into a software company, paving the way for future growth.

19

Spinner Tech debuted as a software company, marking a pivotal moment in our evolution. This milestone set the stage for our continued growth and innovation in the tech industry.

20

From 2020 to 2022, Spinner Tech collaborated with various companies and agencies, delving into diverse software domains including web, mobile app, and game development. Additionally, we undertook a significant project with a USA-based United Nations client.

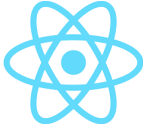

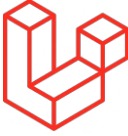

23

Spinner Tech expanded into live streaming and gaming, diversifying its offerings. This move marked a significant step towards enriching digital experiences for users.

24

Spinner Tech ventured into blockchain development and AI platforms while enhancing our proprietary in-house product, showcasing our dedication to innovation and tech advancement.

OUR NFT & BLOCKCHAIN PRODUCTS

Infinity Green

(Cryptocurrency)

Infinity-green is a Solana-based cryptocurrency project minting a new token every second for 98 years, with a total supply of 10^{26} . This stablecoin is pegged to infinity, offering a stable value relative to itself. Caution is advised due to the project's early stage and potential risks.

Jackson Art Foundation

(NFTs)

The Jackson Foundation is a non-profit organization that supports the development of the programming language Jackson. Recently, it expanded its focus to include the development of non-fungible tokens (NFTs). The foundation aims to create a comprehensive platform for the creation, management, and trading of NFTs.

Highway Police

(AI/Traffic)

A new AI-related app for highway police. This is a govt project.

River Police

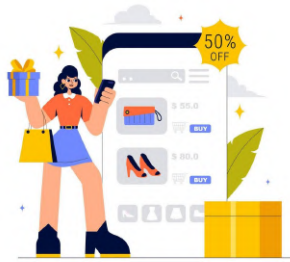

(Public Safety App - Govt)

Our River Police Public Safety App leverages **AI** to enhance security and provide swift **Emergency Responses**. Users can sign in via phone number with OTP verification and report incidents such as accidents, robbery, drug supply, child trafficking, and more. The app features an SOS option for immediate assistance, enabling users to contact police officers directly and track their response in real-time on a map. Duty officers

can manage SOS calls, view incident locations, and access complaint histories, ensuring efficient and effective public safety operations on the river.

Discover Our Approach

From Conceptualization to Launch, We Navigate Every Step of Your Project Journey. Learn How We Craft Seamless Solutions in Mobile App Development, Design, and More.

Explore Our Mobile App Development Process

From Concept to Launch, We Ensure Success Every Step of the Way

Business Analysis: Our consultants delve into client requirements, conducting thorough business analysis.

Planning: We strategise the most effective solution, selecting platforms for maximum benefit.

Design and Development: Creative designers craft beautiful UI/UX designs, while developers focus on requirements, performance, and security.

Quality Assurance and Testing: Rigorous testing ensures adherence to QA guidelines and client requirements.

Maintenance and Support: Post-release, we handle app store optimization and provide ongoing maintenance and support for future enhancements.

Explore Our Software Development Process

Navigate Every Step with Confidence Our Proven Development Process

- 1. Define:** Understand client requirements and project scope thoroughly.
- 2. Research:** Dive into market trends, technologies, and potential solutions.
- 3. Create Design:** Craft intuitive UI/UX, ensuring user-centric experiences.
- 4. Develop:** Bring designs to life with robust coding and development.
- 5. Test:** Conduct testing to ensure functionality, performance, and security.
- 6. Deliver:** Deploy Solution, providing seamless integration implementation.
- 7. Maintain:** Offer ongoing maintenance and support to keep the software up-to-date and efficient.

Enhance Your Website's Functionality - Website maintenance isn't just about keeping it up-to-date; it's also about integrating new features to make it more interactive. Explore the Ten Phases of Web Site Design and Development Process with Spinner Tech Ltd., where we offer PHP MySQL-driven web design and development and ready-to-go web application services. Whether it's dynamic, advanced, or rich web application development, we deliver exactly what you need. Like building a house, a website requires careful planning and thought. Let us guide you through each step of the process, ensuring your website's success.

| Our Policies

Dive into Our Policy Prowess Clear and Concise Guidelines for Cancellation, Refunds, and Liability. Understand Our Commitment to Transparency and Trust at Spinner Tech.

Cancellation Policy

Clients wishing to cancel a project must submit a written cancellation request with an authorised signature. Upon cancellation before project completion, an invoice will be issued for the work completed to date, depending on utilized resources.

Any project delay exceeding 30 days due to the client will result in automatic cancellation by Spinner Tech, with the project restarting only upon receipt of a written request. In such cases, an invoice will be issued for work completed at that time.

Refund Policy

By registering for our services, clients agree to adhere to Spinner Tech's refund policy. This policy does not apply to third-party entities unrelated to Spinner Tech.

Refunds are considered a last resort after exhaustive attempts to reach a mutually acceptable resolution. Refund requests will be evaluated only if no satisfactory solution can be reached.

We handle projects professionally but offer refunds under specific conditions:

- 80% refund of the kick-start amount if the project remains unstarted.
- Partial refunds are based on completed work if the project is terminated at any stage before completion.
- No refunds for projects completed and deployed on the server.

S.N: No refunds are provided for completed and deployed projects.

Limitation of Liability

Spinner Tech holds no liability for direct, indirect, or consequential revenue losses related to our developed projects. We reserve the right to terminate projects without liability. Spinner Tech does not assume responsibility for issues, damages, or downtime resulting indirectly from our services. Third-party services are independent of SpinnerTech's provisions.

Please note that our refund/cancellation policy is subject to change without prior notice. It is advisable to review this policy periodically. Continued use of our website after amendments implies acceptance of the updated policy.

Our Payment Process

Explore Our Comprehensive Solutions for Digital Transformation. From Web Design to Mobile App Development, We're Your Strategic Partner in Growth.

1. Contractual Agreements

Our payment process begins with establishing clear contractual agreements tailored to your project's scope and requirements. We prioritise transparency and accountability to ensure mutual understanding and alignment.

2. Joint Venture Collaboration

In collaborative ventures, we work closely with our partners to define payment structures that support our shared objectives. Through open communication and mutual trust, we strive to create mutually beneficial partnerships that drive success.

3. Secure Transactions

At Spinner Tech, we prioritize the security of your transactions. We leverage industry-standard encryption protocols and secure payment gateways to safeguard your financial information and ensure seamless transactions.

4. Flexible Payment Options

Recognizing the diverse needs of our clients and partners, we offer flexible payment options to accommodate varying budgets and preferences. Whether through milestone-based payments or project completion payments, we aim to provide convenience and accessibility.

5. Continuous Support

Throughout the payment process, our dedicated team is available to address any inquiries or concerns you may have. We believe in fostering open communication and providing timely assistance to ensure a smooth and hassle-free experience.

Why Choose Us?

Choose Spinner Tech for experienced developers, agile project delivery, and reliable solutions, ensuring success in every endeavour.

At Spinner Tech, we are your premier choice for transformative technology solutions. Here's why leading brands and enterprises prefer us

- **Highly Experienced Developers:** With over a decade of industry experience, our team brings unparalleled expertise to every project.
- **Seamless Hiring and On-time Delivery:** We streamline the hiring process to assemble top talent swiftly, ensuring on-time delivery of your projects.
- **Quick Team Scaling:** Our agile approach allows for rapid team scaling, adapting to your project's evolving needs with ease.
- **Agile Methodology:** We follow agile methodologies for efficient project management, enabling continuous improvement and rapid deployment.
- **Reliable Solutions and Security:** Trust us for reliable solutions and robust security measures, safeguarding your digital assets at every step.

Since 2017, Spinner Tech has been at the forefront of web design, development, mobile app development, and more. Our passion for technology and commitment to excellence have earned us a reputation for delivering cutting-edge solutions globally. From startups to enterprises, we cater to diverse needs with bespoke solutions tailored to your requirements.

Key Reasons to Partner with Us
